

# List of countries and dependencies by population

---

This is a **list of countries and dependencies by population**. It includes sovereign states, inhabited dependent territories and, in some cases, constituent countries of sovereign states, with inclusion within the list being primarily based on the ISO standard ISO 3166-1. For instance, the United Kingdom is considered as a single entity, while the constituent countries of the Kingdom of the Netherlands are considered separately. In addition, this list includes certain states with limited recognition not found in ISO 3166-1. Also given in percent is each country's population compared with the world population, which the United Nations estimates at 7.87 billion today.

Map of countries and territories by population in 2019 (the darker, the more populated)

## Method

---

Figures used in this chart are based on the most up to date estimate or projections<sup>[1]</sup> by the national census authority where available, and are usually rounded off.

Where updated national data are not available, figures are based on the projections for 2021 by the Population Division of the United Nations Department of Economic and Social Affairs.<sup>[2]</sup>

Because the compiled figures are not collected at the same time in every country, or at the same level of accuracy, the resulting numerical comparisons may create misleading conclusions. Furthermore, the addition of figures from all countries may not equal the world total.

Areas that form integral parts of sovereign states, such as the countries of the United Kingdom, are counted as part of the sovereign states concerned. Not included are other entities, such as the European Union,<sup>[a]</sup> that are not sovereign states, and independent territories that do not have permanent populations, such as various countries' claims to Antarctica.

## **Sovereign states and dependencies by population**

Note: A number rank is assigned to the 193 member states of the United Nations and the two observer states to the United Nations General Assembly. Dependent territories and constituent countries that are parts of sovereign states are shown in *italics* and not assigned a numbered rank. In addition, sovereign states with limited recognition are not assigned a number rank.

## Notes

- The European Union is a *sui generis* supranational union whose sovereign members delegate to it by treaty certain powers that are often exercised by sovereign states. Its combined population has been estimated at 447,319,916 on 1 January 2020, and it would be ranked 3rd if it were included in the list. It has 5.69% of the world's population — see "Eurostat-Tables, Graphs and Maps Interface (TGM) table" (<https://ec.europa.eu/eurostat/databrowser/view/tps00001/default/table?lang=en>). European Commission.
- The census figure refers to mainland China, excluding its special administrative regions of Hong Kong and Macau, the former of which returned to Chinese sovereignty on 1 July 1997 and the latter on 20 December 1999.
- The figure includes the population of India-administered Kashmir but not of China- or Pakistan-administered Kashmir.
- Demographics of the 50 states and the District of Columbia, excluding the U.S. territories.
- The figure includes the population of Pakistan-administered Kashmir but not of China- or India-administered Kashmir.

- f. Including the Republic of Crimea and Sevastopol, Russia's disputed administrative areas on the Crimean Peninsula. The Ukrainian government and most of the world's other states consider the Crimean Peninsula *de jure* a part of Ukraine's territory.
- g. Demographics of the 18 regions of France. Excluding overseas territories and territorial collectivities: French Polynesia, New Caledonia, French Southern and Antarctic Lands, Clipperton Island, Saint Barthélemy, Saint Martin, Saint Pierre and Miquelon, and Wallis and Futuna.
- h. Excluding the 14 British Overseas Territories and the 3 Crown dependencies, shown separately.
  - i. Including Zanzibar.
  - j. Excluding the Autonomous Republic of Crimea and City of Sevastopol, Ukraine's administrative areas on the Crimean Peninsula which are disputed with and *de facto* administered by Russia. However includes all territory in the Donbas region where there are ongoing insurgencies by separatist forces.
  - k. Excluding the demographics of the disputed territory of Western Sahara (Sahrawi Arab Democratic Republic).
  - l. Taiwan (Republic of China) also includes the minor islands of Kinmen, Matsu, Penghu, etc. The UN does not recognize the Republic of China (Taiwan) as a sovereign state.
- m. Excluding the three constituent countries of the Kingdom of the Netherlands in the Caribbean Sea (Aruba, Curaçao, and Sint Maarten), but including the three special municipalities of the Caribbean Netherlands (Bonaire, Sint Eustatius, and Saba).
- n. Includes Somaliland.
- o. Excludes Kosovo.
- p. Excludes the Faroe Islands and Greenland.
- q. Excludes the Åland Islands.
- r. Excludes Abkhazia (242,862, census 2011) and South Ossetia (53,559, census 2015).
- s. Excludes Transnistria.
- t. Kosovo is the subject of a territorial dispute between the Republic of Kosovo and the Republic of Serbia. The Republic of Kosovo unilaterally declared independence on 17 February 2008. Serbia continues to claim it as part of its own sovereign territory. The two governments began to normalise relations in 2013, as part of the 2013 Brussels Agreement. Kosovo is currently (*this note self-updates*) recognized as an independent state by 98 out of the 193 United Nations member states. In total, 113 UN member states recognized Kosovo at some point, of which 15 later withdrew their recognition.
- u. Excluding Northern Cyprus.
- v. Administration is split between Morocco and the Sahrawi Arab Democratic Republic, both of which claim the entire territory.
- w. *De facto* independent, *de jure* part of Moldova.
- x. *De facto* independent, *de jure* part of Cyprus.

- y. Abkhazia is the subject of a territorial dispute between the Republic of Abkhazia and Georgia. The Republic of Abkhazia unilaterally declared independence on 23 July 1992, but Georgia continues to claim it as part of its own sovereign territory and designates it as a territory occupied by Russia. Abkhazia has received formal recognition as an independent state from 7 out of 193 United Nations member states, 1 of which has subsequently withdrawn its recognition.
- z. *De facto* independent, *de jure* part of Azerbaijan.
- aa. South Ossetia's status is disputed. It considers itself to be an independent state, but this is recognised by only a few other countries. The Georgian government and most of the world's other states consider South Ossetia *de jure* a part of Georgia's territory.
- ab. The total population of 825 consisted of 453 residents and 372 nonresident citizens.
